Professional Scrum Master I (PSM), Scrum.org, March 2025

Experience:

Self Enhancement, Inc.

Technology Engagement Administrator - Culture and Communications | July 2026 - Present

- **Technology Strategy & Operations:** Lead the organization-wide technology roadmap, optimizing IT infrastructure, managing external vendor SLAs, and aligning digital tools with overarching operational goals.
- **Systems Architecture:** Function as Technical Product Manager for the architecture and implementation of CaseWorthy CRM, streamlining enterprise data collection and workflow reporting.
- **SaaS Optimization:** Spearhead enterprise SaaS auditing and application consolidation onto Microsoft 365 Enterprise, reducing tool redundancy and software costs.
- **Technical Engagement & AI:** Design and execute organization-wide training and upskilling programs in data literacy, AI best practices, cybersecurity, and emerging technology for staff and community members.

Block, Inc.

Operations Lead & Scrum Master - Customer Operations Analytics | August 2024 - July 2026

- Led the transformation of three separate analytics teams into a singular, cohesive Agile unit, streamlining communication and increasing collective output velocity by 67%. Aligning documented processes, performance metrics, and implementing two week sprints.

- Established "Definition of Done" and quality standards, effectively shifting the culture from reactive to proactive, systemic improvement.
- Partnered with senior leadership to define operational KPIs, providing the visibility needed to make high-stakes product and resource-allocation decisions.

Senior Business Intelligence Analyst - Customer Operations Analytics | August 2022 - August 2024

- Directed the technical strategy for executive-level dashboards used by leadership to monitor product trends, health and emerging risk exposures.
- Mentored team members in the art of data storytelling, ensuring that technical insights were translated into actionable business strategy for executive stakeholders.
- Spearheaded the development of Root Cause Analysis frameworks for global markets, enabling accurate and in-depth analyses of emerging product deficiencies.
- Translated complex legal and regulatory requirements into technical data specifications using user stories within an Agile framework for Engineering and Product teams.

Leadership Competencies

Strategic Alignment: Translating high-level business goals into actionable roadmaps for analytics, compliance, and product teams.

Stakeholder Management: Acting as a key advisor to senior leadership to provide data-backed justifications for resource allocation and product prioritization.

Organizational Transformation: Scaling team capabilities by shifting from reactive, ad-hoc processes to proactive, Agile frameworks.

Cross-Functional Governance: Driving accountability across departments, ensuring regulatory integrity, and standardizing operational quality.

Data Analysis & Modeling: Predictive Modeling, Root Cause Analysis (RCA), and Statistical Validation.

Technical Stack: Advanced SQL, Python, R, Snowflake, LookML/Looker, Tableau, JIRA.

Data Strategy: Data Governance Frameworks, ETL Logic, Metadata Management, and KPI Definition.

Activities:

Alpha Kappa Alpha Sorority, Inc., Zeta Sigma Omega Chapter

- Budget and Finance Committee, Member 2020 - Present
- Scholarship Committee, Member 2020 - Present

P.I.N.K. Ivy Foundation

- Treasurer, 2023 - Present: Manage the foundation’s financial operations and budget, ensuring strict compliance with fiscal policies and transparency in reporting.
- Vice President, 2022-2023: Provided executive leadership, overseeing committee operations and assisting in the strategic direction of the foundation.
